Preface

This is our yearbook, a great yearbook. It has a hard cover and 212 pages. Inside we have crammed pictures and words we hope will forever capture the Class of 1991 in its senior year of glory.

It would be ridiculous to hope that all of our pictures and words could together preserve more than part of our senior year. Twenty years from now our fashions will be dated and our names unfamiliar; even our legacy will fade, if we let it.

When we leave King Philip High School, we must not leave the Class of 1991. After all this is our class, and our book.

— Enjoy the yearbook!

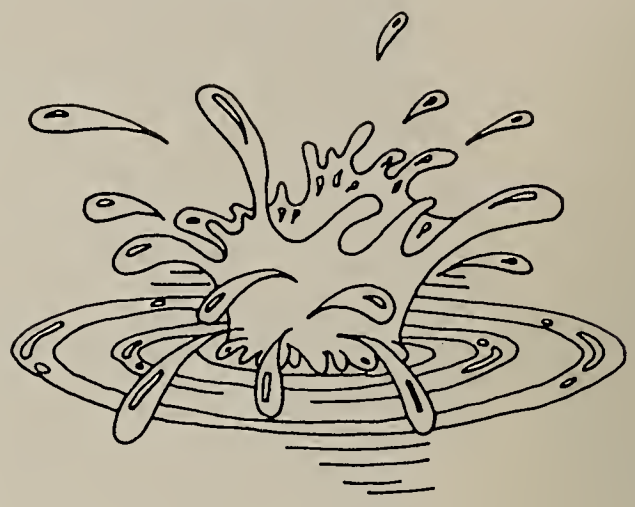
Are you really photographers from Playgirl?



Can you see the resemblance?

Take my picture and die! Vicki K.

Hey guys, don't you wish you were me!

Superfriends in the Hall of Justice

Your move!

Wendy B. and Kara B.

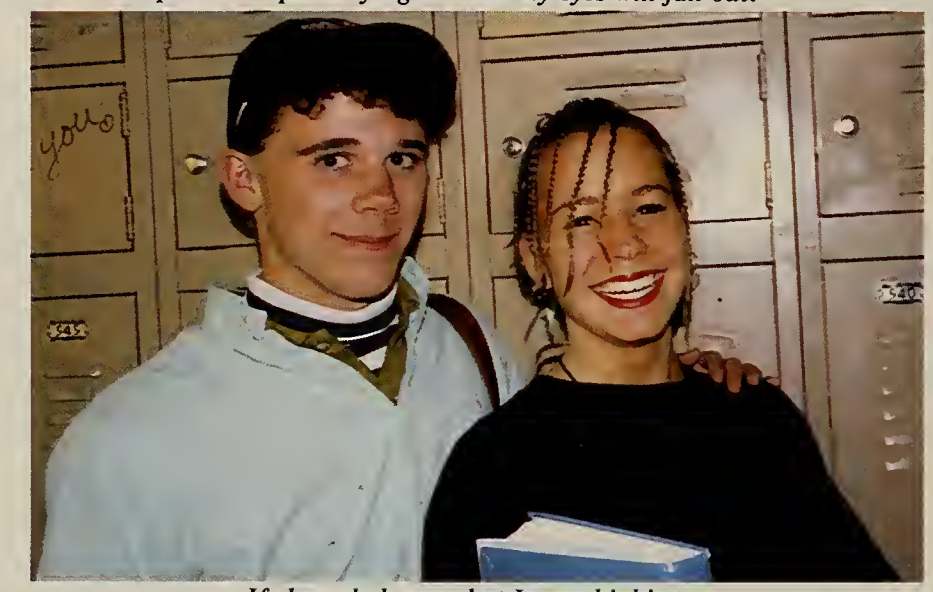
So what if I'm skipping.

Don't doubt us, we've got the winning smiles

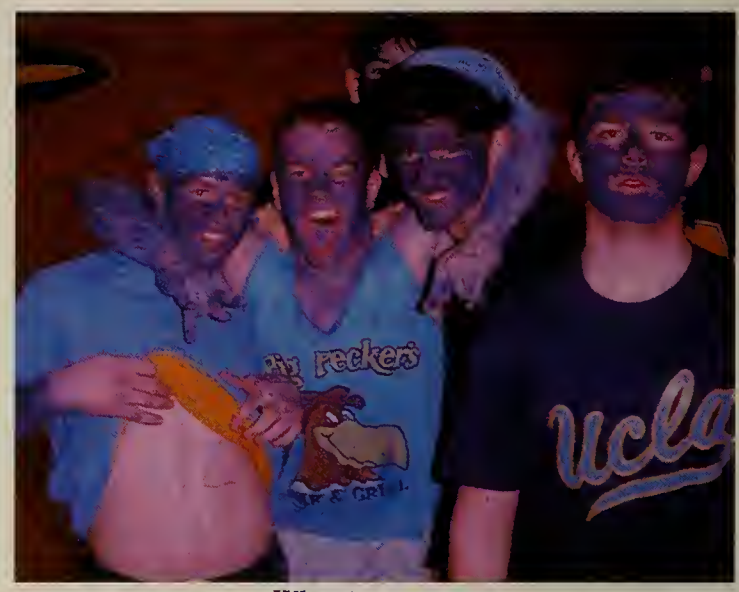
C'mon baby! let's do the twist.

Stephanie — pull any tighter and my eyes will fall out!

K. Crocker, A. Levesque, M. Mullen, K. Kenyon



If she only knew what I was thinking



Where's Smurfette?

A face only a mother could love.

Boy what a spin cycle!

So what if I'm short

Diane Nelson

"Scha right" The pledge this early.

Coach C and company

In desperate need of Nair.

Mid-year locker clean out — Fun! Not.

It's like this . . .

Class

Dear Sr. Ingalls and Miss Towers,

Isn't it down right amazing — it's been 15 years since we last saw King Philip. We haven't changed too, too much. Well at least some of us haven't. The people that stuck around didn't change too much. Vinny Villano owns his dad's store, he fixed the place up real nice. Poor Michelle Salisbury and Stacey Holland are still waiting for Rob Fitzgerald to graduate. Douglas Rowe told me the other day that he's been teaching David Wiggin in Driver's Ed. As we all expected Frank Rose bought the Sunoco station, managed by Jason Chianca with Marc Vitelli and Trent Liberatore pumping the gas. The other day I saw Scott Stone the other day and he was waiting in line for yet another unemployment check. Joe Sparks and Paul Reinhardt were seen together in a small club near Wrentham. I saw Jen Shore, Amy Healy, Brenda Tierney, and Colleen Silver — they had just come back from the Grateful Dead's spring tour. They looked great, even their dirty feet.

We had a couple of people go straight too. Believe it or not Brian Treeful took over his father's job. Brian is now the Chief of Police in Norfolk. Tushar Patel and Derek Franklin also took over their father's businesses. Tushar now owns the Neartown Motel. You won't believe it but Dave Powell and Brian Malagrida are working for the F.B.I., busting dope heads. Ed Beutler finally became a state trooper. We are also lucky to have a few good people in the C.I.A., James Perrotti, Marcus Houston, and Heidi Curtis, but I heard Marcus is just "playing cop." Debbie Wilson is a Drill Sergeant and was found "drilling" Ann-Marie Pelletier, who has joined the Marines. We should all be proud of our Admiral Francis Weaver, and also Kathy Griswold who is flying fighter jets.

I got in touch with Keith Conley and Sandy Wood, they own a health and fitness club and are doing well. They live with Jeff Wall and Mark Videto on a big house boat. During their travels far and wide, they have reported seeing a few of us "91s." Tracey Graham, Tricia Molloy, and Shannon Mahady were floating around the Caribbean. Heather Pickett and Arianna Schneider also stopped there for just a peek. They dropped Joanne Troiano off in Africa where she met up with Dannelle Russell. There they started writing soothing poetry. Merry Toll and her husband told me that they saw Laura Siekman over in Europe with her husband. Ali Caiazza owns her own art studio with Liam Sullivan in Paris, where Asha Ghosh was found recently on the Riviera reading a book.

When we last saw Bob Mannering, he was living off of his rich wife's inheritance in Beverly Hills. Also in Beverly Hills lives Colleen Moore and Veronica Boyle, who own a Day Care Center. I called Chrissy Hovey on her cellular phone in her BMW and guess what, she was on her way to Bloomingdale's. At Bloomingdale's Chrissy ran into Heather Drake, who was advising her on how to apply her cosmetics. Chrissy also saw Tasha Pollard in the Lingerie department. Gail Holland is a famous attorney with Kim Hender as her legal secretary also set up in Beverly Hills.

As you may already know Christian Hazel is the lead guitarist for Phoenix, he lives in his mansion in the Florida Keys, and he will never forget Moni. Of course, we are very proud of Debbie Noble who is on the cover of Time for figuring out a way for men to have babies. This article was written by Amy Knowles. Amy is still searching for the perfect boyfriend.

We have a few star athletes from our class as well. In the 2006 Olympics Leah Calleaux won a gold medal in Gymnastics, and Jeff Mahoney received a gold medal in the marathon. As well as being a gold medalist Jeff is also the Vice President of the Nike Shoe Co. under President Kirk Bogardus. However, Kirk also has another profession, he is a weatherman in his spare time. But, without the support of sponsor Kyle Rockett, who is running professionally on the world Circuit, Nike Shoes wouldn't be of the high quality that they are.

The other day while I was driving I passed Kim Hamwey and her family of four kids. They were driving down a long, secluded, winding road trying to find the golden arches. Meanwhile Brian Atkinson and Dan Boone have their own Engineering Firm. Gina Casamenti owns her own Chippendale Club with Jace Pearson as the main attraction. Jace is also working with Evangelyn Morse to save the Earth from its environmental destruction. Craig St. Amand is developing concepts to make the world a more efficient place to live. The day after graduation Neil Hagerty won the lottery and is still living in luxury.

On the serious side of things Cara McGrath is trying to teach younger kids that life isn't as hard as they say, but still trying to figure it our herself. Cara and Jese Poirier are counselors at the center for troubled teens owned by Becky Holster, who happily married and living in Vermont. Jen Kettell and Christina Down are teaching deaf children. Jen has also enlisted in the Peace Corps with Rachel Lawry. Rachel lives on a small farm in Wales. Jenn Cress is an Orthopedic Physical Therapist and is married to Steve. Amanda Brown and Tracey McDonald became special

Prophecy

education teachers. Amanda is married to John and has 8 children of her own. Keri Alsworth is a physical therapist and in her free time she tours with the well known band Phoenix. Nicole Manning is happily married and an executive for Tim Konowitz's company. Tim is also happily married with one child. Neil McGrath is living in Canada just like he had hoped to. Heidi Ostergard and Niels Siegumfeldt are quite content now because they are living at home again.

Of course we all know that the Bruins have just won the Stanley Cup, we hvae a few people to thank for that. Chris Killian who has improved greatly took over Andy Moog's position as goalie. The highest paid player in NHL history is Tom Buckley who plays defense. Last but not least we owe all of our thanks to the owner Mike Unterweger and Draft Manager Doug Johnston.

Other people making headlines in the sports world are: Braden Andrews, after an all star year, is preparing for the world series. Mike St. Pierre is the first person to ever manage two different professional sports teams. Mike Sullivan is the athletic trainer for the New York Giants. Thanks to Tommy Rutherford the New England Patriots have won their first Superbowl in thirty years. At this game was Dennis Collins who witnessed the victory of the Patriot's against the 49'ers at Candlestick Park. Jarrod Luke was also at this game. He was broadcasting for NBC Sports. After the game, Elise Herman was interviewing the Patriot's in their locker room. Carolyn Nagle was just in the paper for her outstanding performance in Field Hockey. Mike Pepin in still on crutches from his high school injuries.

Abby Bender, is a struggling, young, single mother of 13, making a living as a performance artist. Recently, Abby took her youngest child, Fillawfet, to Kenny Pedicure Center and is now suing Lisa Kenney for malpractice. Moni Ely, who owns her own practice in a medical field took Rashmi Pandey as her apprentice when she graduated from medical school. Steve Droste finally moved out of Norfolk and became a successful brain surgeon.

Welcome to the business world of King Philip graduates. To start things off, we have Debbie Figurelli who owns her own law office in Aruba and is married to a guy from Australia. Derek Swanson is the owner of his own computer company in Tokyo. James Campbell is the proud owner of a major T-shirt industry and is living a very comfortable life. Nina Hallett owns an accounting firm in which she handles the financial affairs of business tycoons. Craig Connolly has become very wealthy due to his success in the computer business. We couldn't get a hold of Amy DesJardins because she is a part of the International Market and was away on business in another country. We picked up a local newspaper and to our surprise Keith Mueller was on the front page due to his successful Bakery business.

Anthony (Jake) Tirado is now the new and improved "Bill Cosby" and he has his own series which is filmed in Hawaii. The series is produced by Michael Carr who is now happily married to the girl of his dreams. Keith Collins and Matt Pelletier are partners in a sacred printing plant. Carrie Creham almost lost her own riding stable, that caught on fire, but thanks to Fire Chief Ken Philips it was able to be saved without any major damage. Gila Dratman and Jean Yau are both famous engineers. As a matter of fact Gila won the Pulitzer Prize for her book on engineering.

Ellen Grady was last seen in Cambridge in a studio apartment making tye-dyes with her friends on the weekends. Joanne Noble has just become the Vice President of Global SOBL. Kim Deschamps retired from the General Secretary of the U.N. She left Dave Thorp in charge of Foreign Relations. Dave still expects to have his cake and eat it too.

On my venture, I ran into Debbie Ferrone and Michele Grzenda in Florida, and was quite pleased to find that Debbie finally owns her own dance studio and Michelle is now a marine biologist at Seaworld. On the other hand, I was not so pleased to find out that Kelly Flynn's "useless" card shop had just filed Chapter 11. Jenette Sabbag has found her "golden ticket" which has given her a very optimistic outlook on life and control of Hersheys (Willy Wonka) Chocolate Factory. Mike McGill is living in a mansion with his wife and children. Mia Hazlett is still making more money than she ever dreamed of and Denise Wilson has become a famous interior decorator for The Ritz Carlton, in Boston.

Do you remember Kurt Mattila? Well he is now a world famous, first fully functioning cartoonist, actor, satirist, magician, world traveler, and adventurer. And how could you forget Bill Payne and John Brennick? They are now presently the proud owners of an electrical business.

We also have some King Philip graduates in New York. Heather Baker owns her own hair studio and only works on the "rich and famous." Next door to Heather's studio, we found Karolyn Bourne who is a buyer for the department store Macy's. Victor Alexandropoulos owns his own

2006 2006 2006

Dentistry. His clientele consists of a few graduates, which are not very happy with his work. These clients are: Jennifer Harrington, Rocco Silvestri, Andy Sloper, and Vicky Gardener. Heather Coulsey is living off of her accumulated wealth and she is quite happy.

Wouldn't you know it? Rick Costello is a State Trooper and has just busted Andy Arnold cruising in his Impala. Karl Bremilst is racing cars at Thompson Speed Way and Robert Buchanan is the head mechanic. I saw Sue Wallin and Christopher Arado racing the other day. Sue was driving her Oldsmobile 442 and Chris was driving his Gutenberg '87 Porsche.

On the sunny side of things, Denise Jacobson moved back to Missouri and started a new career. Last we heard, Jen Pikarsky was living on the shores of New Jersey and relaxing on the beach in front of her house. Susan Murrell and Diane Nelson are living in the Caribbean. Susan is sitting on her balcony and waiting for the return of her husband. Diane is married and making lots of money. Susan Genovese is in Florida, married to a millionaire, and getting a tan. Lynn Moretti is living in Hawaii with a rich man. Mark Robinson is extremely wealthy and lives down the Cape, and has a winter house in Maine. Stacee Grote owns an island in Jamaica and has male slaves to wait on her hand and foot. How ironic! Dan Gill is one of Stacee's slaves.

It's a small world after all . . . Aimee Lunn became a famous pilot. While she was flying from Hawaii she realized that Jim Giovannucci and Tom Lazay were on the plane. Also on this flight was Lisa Aniserowicz who was the flight attendant. Jim and Tom were very excited because they were on their way to see Jim Davis finally graduate. Rick Chamberlain and Craig Weiss own a successful cruise line, recently they had a boat full of old familiar faces: Jeff Famolle, Steve Hamilton, Aaron Rousseau, Chris Harcovitz, Tara Hall, Matt Sekula, and Eric Todd.

Renee Joly ran into Sofia Svanholt last week. Renee has eight kids and is married to Eric. Renee is still helping Lisa Hallett try to find the stairs and the light. Sofia Svanholt has three kids and a rich, loving husband, and she only has to work when she wants to.

Keith MacDonald who invented a time traveling machine, pointed out a few astonishing facts. When Keith traveled back to '91, he realized that Todd Robinson has been doing the same thing since '91. Keith also found out that David Ricci has been driving the same car without a radio.

After high school most of us touched base with reality. There are a few of us who still have not seen the light. For example, Diana Gulino is still looking for the right college with Karolyn Bourne, and Micheal Puccio continues to search for the right house.

Susan Lockwood is now living the "real life." but, Todd Nicodemus and Jeff Fallon are just living. While Jennifer Keilen lives on the planet Genesis. It seems to me that Bill Gibson is living a wonderful life. Bill just took a break from his job to enjoy his boat with his family. On his vacation Bill took his wife to the opera. As the opera opened Bill could not believe his eyes, when he saw that the star was no other than Heather Dixon. Also at this opera was Andy Neale who was in the pit playing the Trumpet. Jenny Palos was last seen chopping broccoli in an Italian restaurant in Montana.

We have a few King Philip graduates who have plenty of time on their hands. Will Hall was sent to prison for things we can't say. Dave Grecho was also sent to jail for vagrancy because he was living in a cardboard box in New York City. Andy Morrisson is in jail for pan-handling on the streets of Buffalo. Rob Trainor was imprisoned for grand-theft auto. The police are still searching for Becky-Jo Dwelley and Joan Barry who were brought up on charges of bigamy.

John Lutfy and Dana Kozak were last seen cruising Franklin. Mike Smith was working as a comedian at the Improv. One night while he was putting on his show, he spotted a few friendly faces in the audience. He found these faces to be: Joanna Carter, Jamie Horton, Asha Nadkarni, Vicki Gardner, and Karen Kuza. To this day, Kristie Lucas has led an independent life and Tara Gallagher is still waiting for her 11:11.

As you may have realized we have not mentioned a few graduates. The reason for this is that they are missing! Just in case you forget them their names are listed below and if you have seen them please contact someone. PJ Easterbrooks, Micah Thompson, Steve Sylvester, Scott Kramer, Greg Banks, Ray Hughes, Steve Raymond, Blair Phinney, Dennis O'Brien, Keri Ross, Joe Frey, Trevor Petrie, and Doug Noonan.

P.S.

Christa Michel is still caught up in Plainville's evil "blue walls" forever dreaming of escape. Laurene "Law" Molloy just recently took a short trip to a mental institution, where she gets lots of rest.

King Philip Regional High School is happy to have had the chance to have three exchange students with us for this school year. We admire these students for taking the chance to come to a new school in a different country where everyday living is drastically different from what they are used to. By having them, the KP students learned of the different customs and traditions of these foreign lands. Thank you Heidi Ostergard, Sofia Svanholt and Niels Siegumfeldt, we will miss you!

Class

As freshmen, the class of 1991, entered King Philip led by President — Mike Smith, Vice President — Gina Casamenti, Treasurer — Monika Ely and Secretary — Keri Alsworth. With Mr. Kummer and Mrs. Erickson as advisors, we began our venture into the unknown realms of ''High School''. We made a definite attempt to build a winning homecoming float with ''KP above all'', but we realized that we just might have to wait for a victory. Our first Freshman-Sophomore Semi-Formal ''Wonderful Tonight'' was held at Demetris in Foxboro on March 25, 1988. Joanna Carter and Nancy Lomas represented our class in the court that evening.

Sophomore year began with Gina Casamenti as President, Jeanine Farrell as Vice President, Keri Alsworth again as our Secretary and Kelly Flynn as Treasurer. The sophomore float ''KP Swat Team'' was an artistic marvel but was still far from being a winner. Even though we couldn't win class events we never gave up hope, our primary goal was always to have a blast! The Semi-Formal ''This is a Time to Remember'' was held at the Coachman's Lodge in Bellingham on March 31, 1989. Our queen, Sandy Wood and her court Stacee Grote and Susan Genovese were elected even though it gets harder and harder to pick three from a class of hot babes.

History

Junior year under the leadership of Ellen Grady — President, Abby Bender — Vice President, Keri Alsworth — Secretary, and Asha Ghosh — Treasurer. Our float ''KP Spirit soars to New Heights as we walk all over the Knights.'' The slogan was finally there but the float left much to be desired. Still without a trophy we looked forward to our *senior year*. Our first prom ''In your Eyes'' with a sexy and stunning court Kelly Flynn, Asha Nadkarni, and Susan Genovese was held on April 20, 1990 at the Royal Plaza Hotel in Marlboro.

Senior year, a year of victory, was led by Laurene Molloy — President, Mike Smith — Vice President, Keri Alsworth — Treasurer, Abby Bender — Secretary and our new advisors Senor Ingalls and Mrs. Towers. We swept spirit week for the first time. Our float, our winning float, was a masterpiece with the slogan ''We'll chew 'em up and spit them on the ground cause what goes up must come down!!'' Senior year is always the best and ours was, our class has always been close and always had a great time. The Senior Prom held on May 17, 1991 at the Sheraton in Mansfield ended our 4 years at KP. Class of '91 your the best! Good luck!

— Mike Smith and Abby Bender

Homecoming

The October 12, 1990 Homecoming at K.P. was a fierce battle between K.P. and the N.A. Rockets. The spirits were high and the bleachers were filled.

The parade with the beautiful Queen, Asha Nadkarni, and Court, Joanna Carter and Kim Hamwey brought many cheers and smiles to the crowd. The floats were made with much effort and imagination and the Seniors showed the most class spirit with their theme ''We'll chew you right up and spit you to the ground, 'cause what goes up must come down!!!'' Along with all the other excitement of the day, we must not forget the K.P. Band and the outstanding performance by the Colorguard.

THANKSGIVING DAY FESTIVITIES

On Thanksgiving Day the King Philip Warriors played their arch rivals the Franklin Panthers. Despite the great weather and enthusiastic support from students and alumni alike, Franklin prevailed. The Most Valuable Player award went to John Connolly and the Queen was Amy DesJardins. The annual quest for the trophy will continue next year!

Hitting the Road

1) A license — what is so great about one? Well, there is not one simple answer. There are those people who enjoy the increased freedom and the ability to avoid those school buses. Then there are those unfeeling people; they like ''road pizzas''. Some will never know — they can't pass the road test. 2) Everyone plans to do one particular thing after getting a license. Some have a romantic view and want to ''drive to the sunset''. Others just plan to breathe to save their life after a breathless road test. 3) For all their greatness, licenses do have a drawback — money. Everything imaginable and beyond costs money. These expenses are hard to meet if you don't have a job or parents who say ''Don't worry about the money.'' 4) A license, a piece of plastic with a pitiful picture is an ''opener of doorways''. These doorways can be different things. They're ''written documents of freedom'' of a step towards growing up. 5) Getting the car — it sounds exciting but is it really? It is for those who want to say ''Good bye MA''. And it is great for those who already feel they own the world — now they own the road too. But sometimes a car is scary. ''It is larger than you are and has the power to destroy anything it hits.'' — Please don't crash.

Getting the Groove

1) What does a sophomore feel like? Groovy: ''I feel good, I feel so good, oh so good.'' There are no more freshmen put downs to suffer through. Some are blasé — everything is the same. Then there are those who hate it — they want to be seniors, at the top of the mountain. 2) What are the attitudes towards other grades? It is the general opinion that freshmen, only 1 year younger are wimps and snobs. But then this could well be a stereotype as was suggested. Juniors and seniors are not to be feared; they are not really out of reach. 3) Do sophomores know it all? There are two different ideas. There are those who do. ''Didn't I always?'' Is this true? Or do they just not know there are things yet to be learned? Some say there will always be things that you don't know that you don't know, such as ''Where is the pool?'' 4) What distinguishes the sophomores from the freshmen? They know their way around the school. Power and sophistication are evident. No one carries all books all day nor does anyone rush to beat the bell. Above all there is maturity. 5) What difference does a year make? There are new priorities and goals and more sophistication. Self confidence exudes itself. There is a basic better taste in everything from music to friends to clothes.

Ringing

Ringing into it! With what? Bells? Of course not, try high school rings. The lucky sopho- stone quality, and the shape. There is color: gold or silver and how many karats you and many more to rummage through. Even the rings themselves come in different styles. non-traditional which is not just one ring but has an unending number of styles. Then This may sound simple. But, in the cafeteria there is a mob around an invisible Balfour order form. Then you push to the front and give it to the person and start to leave. "Wait, you wait 4 months for a ring. Is it worth it? Of course.

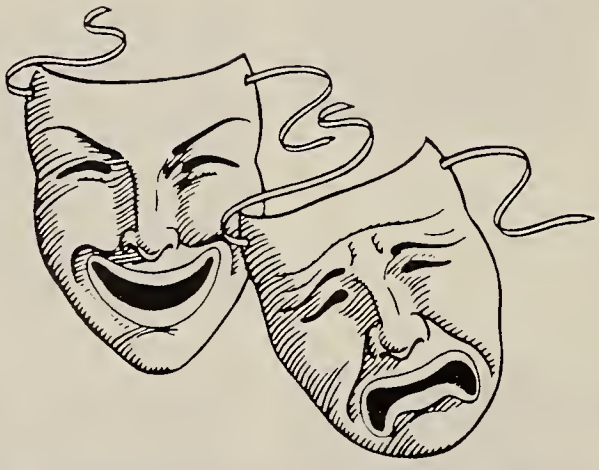
Freshmen



Freshmen Class Officers and Advisors: Mr. Finase, Karen Constantine, Tammy Payne, Amy Bergstrom, Annie Kledzik, Miss Lumenti

A New Time and Place

1. As the freshmen walked into the high school for the first time they each thought a different thought. Some just wished for help, others thought they were dead and still others felt they were really small. 2. Along with high school comes many experiences both good and bad. Things like locks and shoes are stolen. People go to the wrong classes. They fall up *and* down the stairs. To top it off the midyears suddenly surface. 3. There is a story that upperclassmen are characteristically rude to the freshmen. Well? Most believe that this is no myth. They say the upperclassmen "own K.P." 4. Freshmen, in school don't think much of their new position in high school. They feel small being the youngest. They believe that this is something everyone has to go through. 5. High school inspires many changes. People begin to feel more responsible, smarter and more confident. 5. High school inspires many changes. People begin to feel more responsible, smarter and more confident. As the changes occur, new friends are made. 6. Getting lost is so easy; all the hallways look the same. The downstairs is confusing and the crowds of people cause chaos. Getting lost is all part of the fun.

Clubs and Activities

Just love these two!

Student Council consists of a group of students who meet bi-weekly to discuss and vote upon issues of student government. These students plan activities for both the school and the community. Homecoming and Class Competition are two of the major events sponsored by Student council, but throughout the year they also sponsor two spirit weeks, ''Everybody's a Star'' day, and other activities to build the student's spirit and self esteem. As well as these school related activities, the Student Council also participates in the Adopt-a-Cottage program, gives Christmas baskets to needy families, and helps to raise money for other charities.

The youth organization called **DECA** (Distributive Education Clubs of America) is very active at King Philip. DECA is the only student organization operating careers in marketing, distribution, merchandising and management through experience in the King Philip Mini Mall. DECA is further distinguished because it is a co-curricular organization structured to serve as an integral part of the classroom instructional program.

The **National Honor Society** is a group of academically outstanding students exhibiting such qualities as character leadership and service. This year's activities included a Halloween play for the elementary schools, a fund raising Rock-A-Thon, Christmas caroling for the senior citizens and many more fun and purposeful events. This is a dedicated and trusting club whose members stand as good role models for their peers.

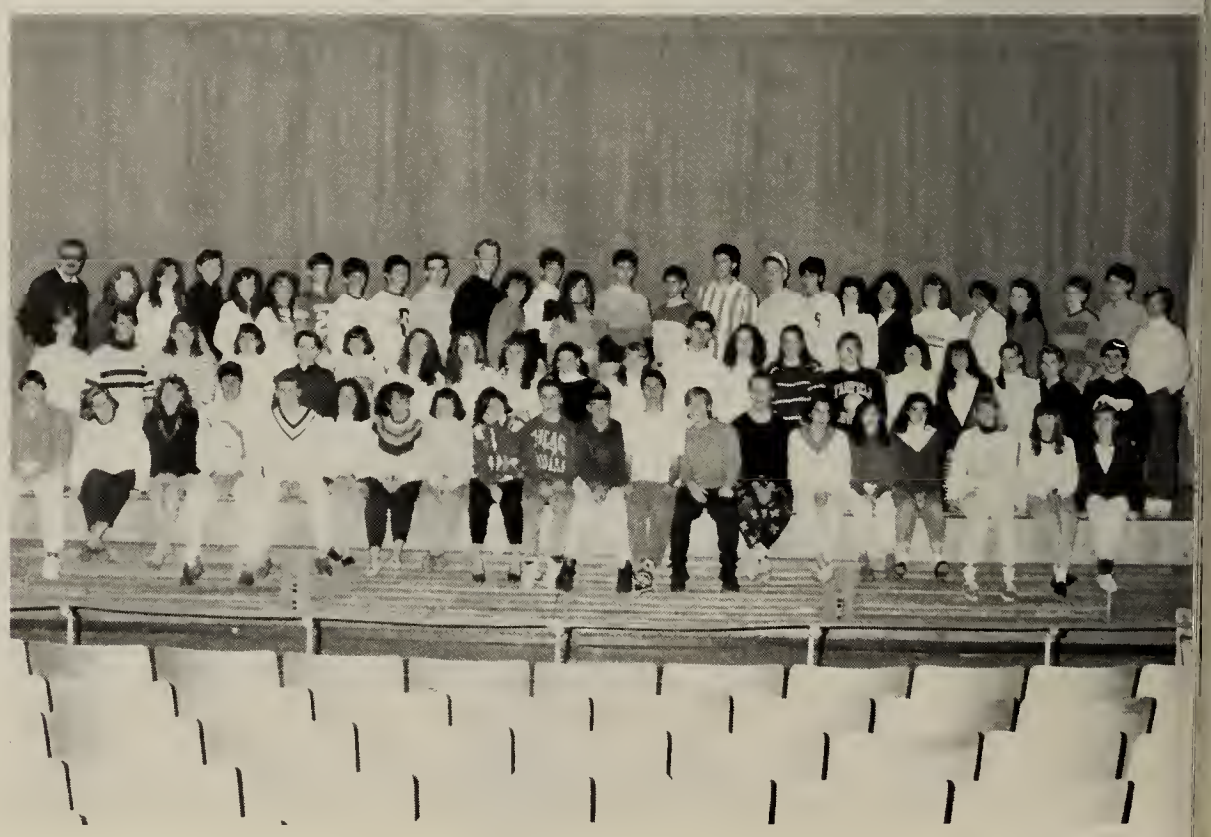
SOPHOMORE PEER LEADERS



PEER LEADERSHIP is a group of students from the senior, junior, and sophomore classes selectively chosen by the faculty and administrators. They visit the regional elementary schools educating the sixth graders on how to cope better with the pressures of high school, especially drug and alcohol abuse. This years advisors are Mr. Pariseau, Mrs. Pheffer, and Mr. Fairfield.

The **Regional Student Advisory Committee** ıade up of one or two elected students from ı class chosen to represent King Philip once a ıth at regional meetings. At these meetings, ıy Student Council representatives gather to ıuss student rights and cares, as well as ex- ıge school improvement ideas.

"We've got the best!"

The **Student Advisory Committee** is made up of one elected student from each class. Each member is appointed to the Student Council. One Member, usually the senior, sits on the School Committee Board and reports to the Student Council. If the board member can't attend a meeting, one of the other three fills in to represent the Student Council. This program is set up to relay important School Committee decisions to the student body.

BAND It was a clear warm Nov. 3 at Sullivan Stadium when this year's band marched their way to the 1990 Division 2 Champions of the New England Scholastic Band Association, and KP's percussion scored a perfect 10. The week before, they received the championship title of the Massachusetts Instrumental Conductors' Assoc. Also, last April the band competed in ''Music Festivals'' in Virginia Beach, Va. Receiving awards in almost every caption including the over all award. Their vigorous rehearsals three times a week after school and on the weekends are full of practices or competitions. The KP Band truly deserves all the awards and recognition it gets.

A **COLORGUARD** show is choreographed to give a visual interpretation of music. During Marching Band Season, the guard performs on a football field with the band. In the winter, the guard performs on a gymnasium floor to taped music.

This yearbook is the product of many minds, many hours and many decisions. We sincerely hope that it represents our school, and in particular, the CLASS OF '91. We hope you feel the same as you eagerly scour these pages for familiar faces, great (and not-so-great) moments and the special camaraderie of KP students.

We have done our best to give you a great yearbook and some day as you remove this book from a dusty shelf, it will remind you of the many happy memories of KP.

Best of luck to all our fellow students wherever life takes you!

The **SUPERINTENDENT'S AWARD** is presented to a senior displaying academic excellence. The standards for this award are prescribed by the Massachusetts Association of School Superintendents. This year, because of their outstanding academic achievement, Gila Dratman and Jean Yau were the recipients of this award.

Ali Caiazza, Abby Bender, Rashmi Pandey, Gila Dratman

The **BOYS'/GIRLS' STATE** program consists of a group of students representing the 3 towns of Norfolk, Wrentham, and Plainville. Several students are nominated each year and then are voted on by American Legion members from their own town. In June, the chosen students attend a week long seminar for academically notable students from all over the state of Mass. There they attend lectures and presentations on politics, and learn the roles and functions of all the branches of government. Those who attend walk away with a greater understanding and respect for our town government.

Back Row: Mark Robinson, Brian Malagrida, Jace Pearson, Bob Mannering Front Row: Steve Droste, Mike Sullivan, Jim Campbell, Jarrod Luke, Todd Nicodemus, Neil Hagerty.

The **VIDEO CLUB,** formed in 1984, consists of a group of bright and ambitious future leaders in the vast production field. While learning the basic skills of verbal and television communications, this strong and still growing group produces, *The Access Newsline, Sportsline,* and local town government meetings. Sorry, no Bar Mitzvahs this year.

We would like to thank Massachusetts Cablevision as well as Wrentham and Norfolk Access organizations for their support. Good Luck to those who are graduating this year and welcome to those who will be joining us next year.

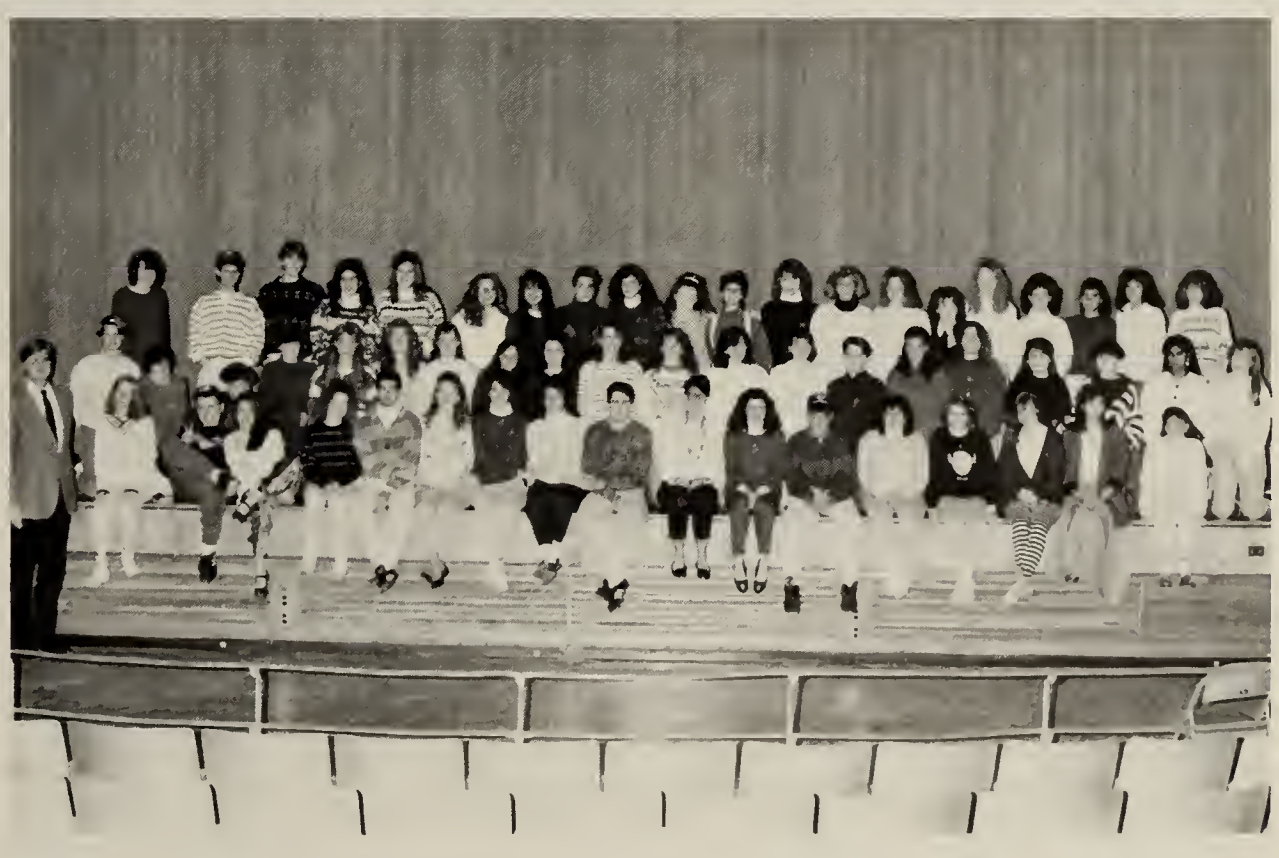
Unicef was brought to King Philip by Asha Gosh and is still going strong in its fourth year. The dedicated members of King Philip's United Nations International Children's Emergency Fund chapter have worked hard to benefit unfortunate children all over the world.

Pre-Med Club is designed to help give students i terested in the medical fields insight on future caree This club was started by Monica Ely and it allows t students to visit hospitals and explore the world medicine.

AMNESTY INTERNATIONAL is a worldwide movement of people working together to protect human rights. The King Philip chapter is active in writing letters, signing petitions, holding fundraisers and other activities to protect the rights of prisoners of conscience — that is; men, women and children imprisoned for their beliefs, color, sex, ethnic origin, language or religion, provided they have neither used nor advocated violence. The King Philip group was started in 1988 and continues to grow.



Students Against Drunk Driving, better known as SADD, is one of the most important clubs in this school. In this special club, the people promote sobriety and are against drunk driving. To spread their message, SADD had many interesting and original activities for the whole school to participate in. Notice how many students joined SADD. This shows you how much we all care about each other by the fact that so many people joined together against drinking and driving.

The **Gym Aids** at King Philip are Juniors and Seniors chosen by the department for their spirit, leadership, and dedication towards physical education. The leaders help the instructors and participate in the activities. The program gives the freshmen and sophomores the opportunity to make friends with the upperclassmen, and in turn the leaders get to meet many of the incoming students. The leaders are positive role models for the students to be involved with. That is what makes this program a success.

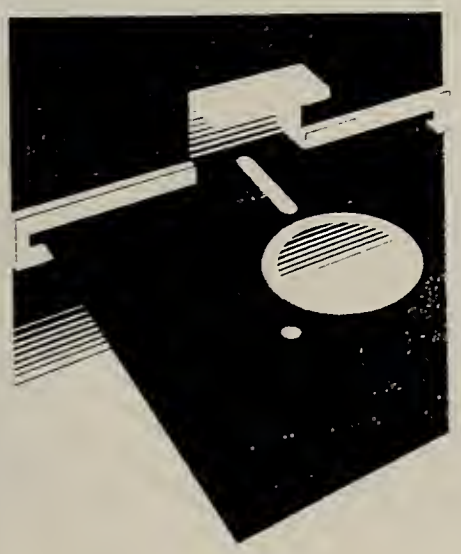
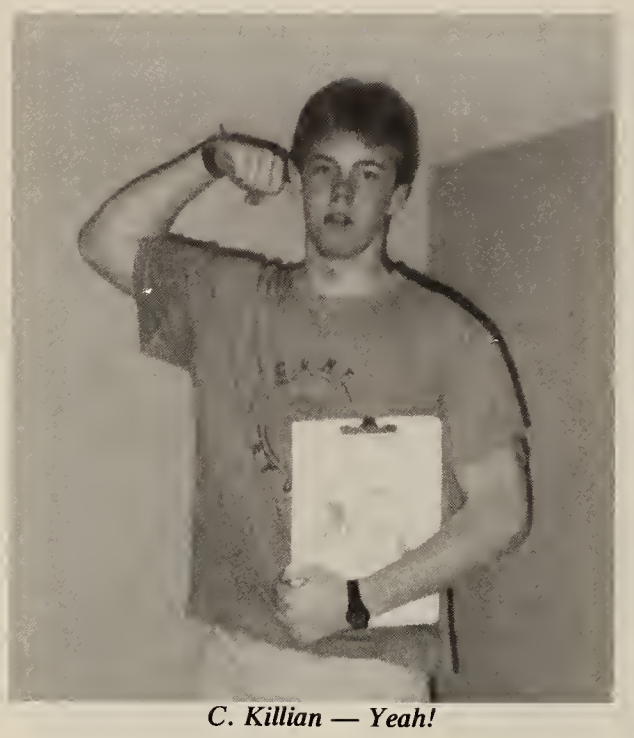
Mathematics. Mathematics is a foundation discipline for other disciplines and grows in direct proportion to its utility. At King Philip we believe that the curriculum for all students must provide opportunities to develop an understanding of mathematical models, structures, and simulation applicable to many disciplines. Changes in technology have caused the mathematics curriculum to be everchanging. These changes are reflected in our courses at King Philip.

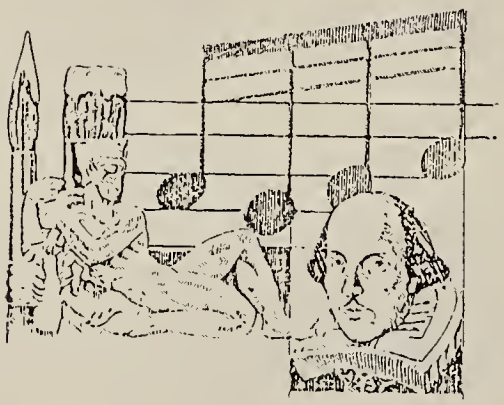


Computer Science. Students are required to take a basic computer class in order to graduate. For those who want to go beyond the basics of computers and continue to more advanced classes, Fortran, Pascal, Cobol, programming and applications courses are offered.

K. Hamway and E. Grady



C. Killian — Yeah!



Artists and musicians do it best!

The Music and Art department. The music program at King Philip is one that competes with a high standard of excellence. It consists of the marching band, jazz band, concert band, and colorguard which are all ranked as gold-medalists groups. Their objective is one of excellence with an incredible amount of time commitment and participation from both the students and their families. They are known throughout New England for their competitiveness, style, and class and this year's marching band field show, Ivan the Terrible, was another step toward greatness and was greatly achieved by all.

The art department offers a wide, yet versatile, selection of courses ranging from Foundation Art to advanced Placement Art. The department offers instruction in the following areas: foundation art, drawing and painting, art history and appreciation, graphic design, ceramics, art for non-majors, fashion design and textiles, advanced art 1, and advanced placement art 2. Over 300 students are now enrolled in the art program and it continually changes to suit the needs of King Philips students.

Industrial Arts. Industrial art classes allow the student to explore a variety of occupational areas for the purpose of aiding in making intelligent educational or career choices. Students may elect to take basic courses in a variety of technical areas and pursue more advanced sequential courses in any of these areas. At King Philip, we offer courses in drafting, technical drawing, architecture, graphic arts, and technology education.

Mr. Lavallee, Mrs. Tolley, Mrs. Raymond, Mrs. Maxell, Mr. Guillemette, Mrs. Dombkowski, Mrs. Stankiewicz, Mrs. Campos

The Business Department. King Philip's business department provides an opportunity for all students to obtain business, computer, and marketing skills that will be useful to them throughout the 1990's. We offer courses valuable for students seeking employment right after graduation and for those planning to further their education after high school. Students get on-the-job training situations and the skills they learn will always be with them.

Mrs. Pavao, Mrs. Sullivan, Mrs. D. Tower, Mrs. Cooper, Mrs. Wernborg, Mrs. Dire, Miss Turco

Special Needs is a program set up at King Philip to help children who want to learn, but cannot compete in the faster classes. The special needs teachers offer instruction in English, math, physical education, and counseling. The teachers are very kind and patient and are a great asset to the teaching staff at King Philip.

Mr. Hartley, Mr. Carneiro, Mr. Pariseau, Mrs. Smith, Mrs. Pfeffer

Physical Education. The physical education program is set up to meet the needs of all students regardless of their athletic ability. The students participate in a variety of individual and team activities from climbing to touch football. Students spend one quarter in the health class entitled "Skills for Living" which deals with self esteem, feeling, family, peer pressure, interpersonal relations and current health issues. The internship program is for juniors and seniors planning a career in physical education. They will assist in various phases of the present program.

Green Eyes

Is a gaze a blind man gives when he's seen the sun?
Green eyes, I thought I'd see you go through
my mind, I wonder what you are like, you know
you needed me by your thinking of me. I only
wish that we could be together, I really think that you're
done but you've shown me the way to love.
As time goes on I must run love, a sad goodbye to the
rise of love. I will see it in your eyes the fun we had together.
I'll love you forever & for always.

Blank the trees stand
against the sky; streaked
in fitful lines of pink and blue
and yellow--colors
of the last raging wish
of the sun. Defied by those trees
--dark and unmoved
by the fall
of their mother, their heat
the binding force of their life.

They see nothing
of the night
and little
of the day.

Asha Nadkarni

but Only--

but Only--
in summer
when the air
floats us syrupy-
sweet through
thick daysandnights
do
we
love?
with the foolish certainty of the
sun.

(in response to e.e. cummings "in Just--").

Asha Nadkarni

And the world came crashing down
Right on top of her head
And it hurt
But she pushed her way through the rubble
And she made her way to sanity
Then to the top -
She earned her happiness.

What am I supposed to think
To hear
To see
To believe
What have we done
To the peace He gave us
To trees
To water
To us
Oh my God, What have we done?

i look
and there it is again
all ready and willing
to snap and claw at me
i stare
the innocent thought interrupted
and i auppose to myself that
i must stop
or get eaten by her touch

Maybe
if i were taller
my smile more lopsided
Maybe then
i could follow my mind
to where my eyes refuse
to see

But i'm small
too small
with only the ineffectual
beauty that sees nothing
in the rain.

Truth must alwaya remain
to me a glimmer.
a glimpse of watery-
sun, squinted at
through the
shade.

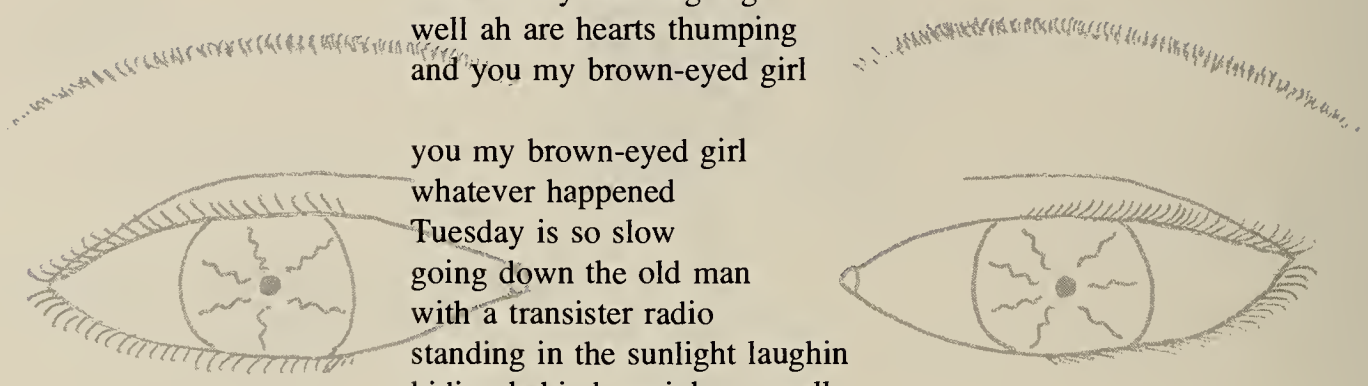
BROWN-EYED GIRL

hey where do we go
days when the rain came
down in the hollow
playin a new game
laughing and a running hey hey
skipping and a jumping
in the misty morning fog
well ah are hearts thumping
and you my brown-eyed girl



you my brown-eyed girl
whatever happened
Tuesday is so slow
going down the old man
with a transister radio
standing in the sunlight laughin
hiding behind a rainbows wall
slipping and a slidin
all along the waterfall with you
my brown-eyed girl
you my brown-eyed girl
do you remember when
we used to sing

sha na na na na na na na na
na na na na
so hard to find my way
now that I'm all on my own
I saw you just the other day
my how you have grown
cast my memory back there lord
sometimes I'm overcome thinking
about it
makin love in the green grass behind
the stadium with you
my brown-eyed girl

— Van Morrison

THIS IS THE TIME

We walked on the beach beside that old motel
They're tearing it down now
But it's just as well
I haven't shown you everything a man can do
So stay with me baby
I've got plans for you
REFRAIN:
This is the time to remember
Cause it will not last forever
These are the days
To hold on to
Cause we won't
Although we'll want to
This is the time
But the time is gonna change
You've given me the best of you
And now I need the rest of you

Did you know that before you came into my life
it was some kind of miracle that I survived
Someday we will both look back
And have to laugh
We've lived through a lifetime
And the aftermath
This is the time to remember
Cause it will not last forever
These are the days to hold on to
Cause we won't although we'll want to
This is the time
The time is going to change
I know we've got to move somehow
But I don't want to lose you now
Sometimes it's so easy to let a
Day slip on by without seeing
each other at all

But this is the time you
turn back to and so
Will I and those will
be days you can never
Recall

And so we embrace again
Behind the dunes, this
Beach it's so cold on
Winter afternoons
But holding you close is
like holding the summer sum
I'm warm from the memories
of days to come.
REFRAIN

— BILLY JOEL

In February, the Second round of the 6th annual bridge break competition took place in Mr. Riley's Drafting or CAD program at King Philip.

The object of the Bridge Break is to design a bridge that will hold the most weight. Each student designs a bridge on the computer using AutoCAD. The students are allowed 30 linear feet of 3/32 squre pieces of bass wood and one tube of glue. The design is plotted out, and a blue print is made to be used as a pattern to build the bridge.

Over the 6 years of the Bridge Break the record has increased each year. It has gone from 14 pounds 6 years ago to 57 pounds earlier this year. This year Braden Andrews' (70 lb) bridge shattered the record held by Rich McNiel's 57 pound bridge. Congratulations Braden!

Marc Vitelli, son of Mr. and Mrs. Paul Vitelli of 485 South Street, Wrentham, has recently broken the King Philip High School record for the amount of weight held by a structure made from a box of toothpicks.

Each year Mr. David Sumner assigns his engineering graphics and architectural drawing classes a project whereby the students must build a structure which will hold the student's own weight. The maximum number of round birch toothpicks which can be used is the contents of a box — 250 toothpicks. The design must be an open structure, as opposed to a solid block, and the advantages of basing the design on the triangle — the strongest geometric shape — are discussed.

This year Marc Vitelli set out to break the school record which was 645 pounds set in 1988 by Richard Ross of Plainville. Marc used Elmer's Wood Glue. After his project unquestionably held his own weight, the participants adjourned to the weight room where the structures were loaded to the breaking point. Marc's structure held a total of 940 pounds before splintering.

Another senior, Rachel Lawry, daughter of Mr. and Mrs. David Lawry of 20 Boardman Street, Norfolk also broke the school record with a design which held 825 pounds.

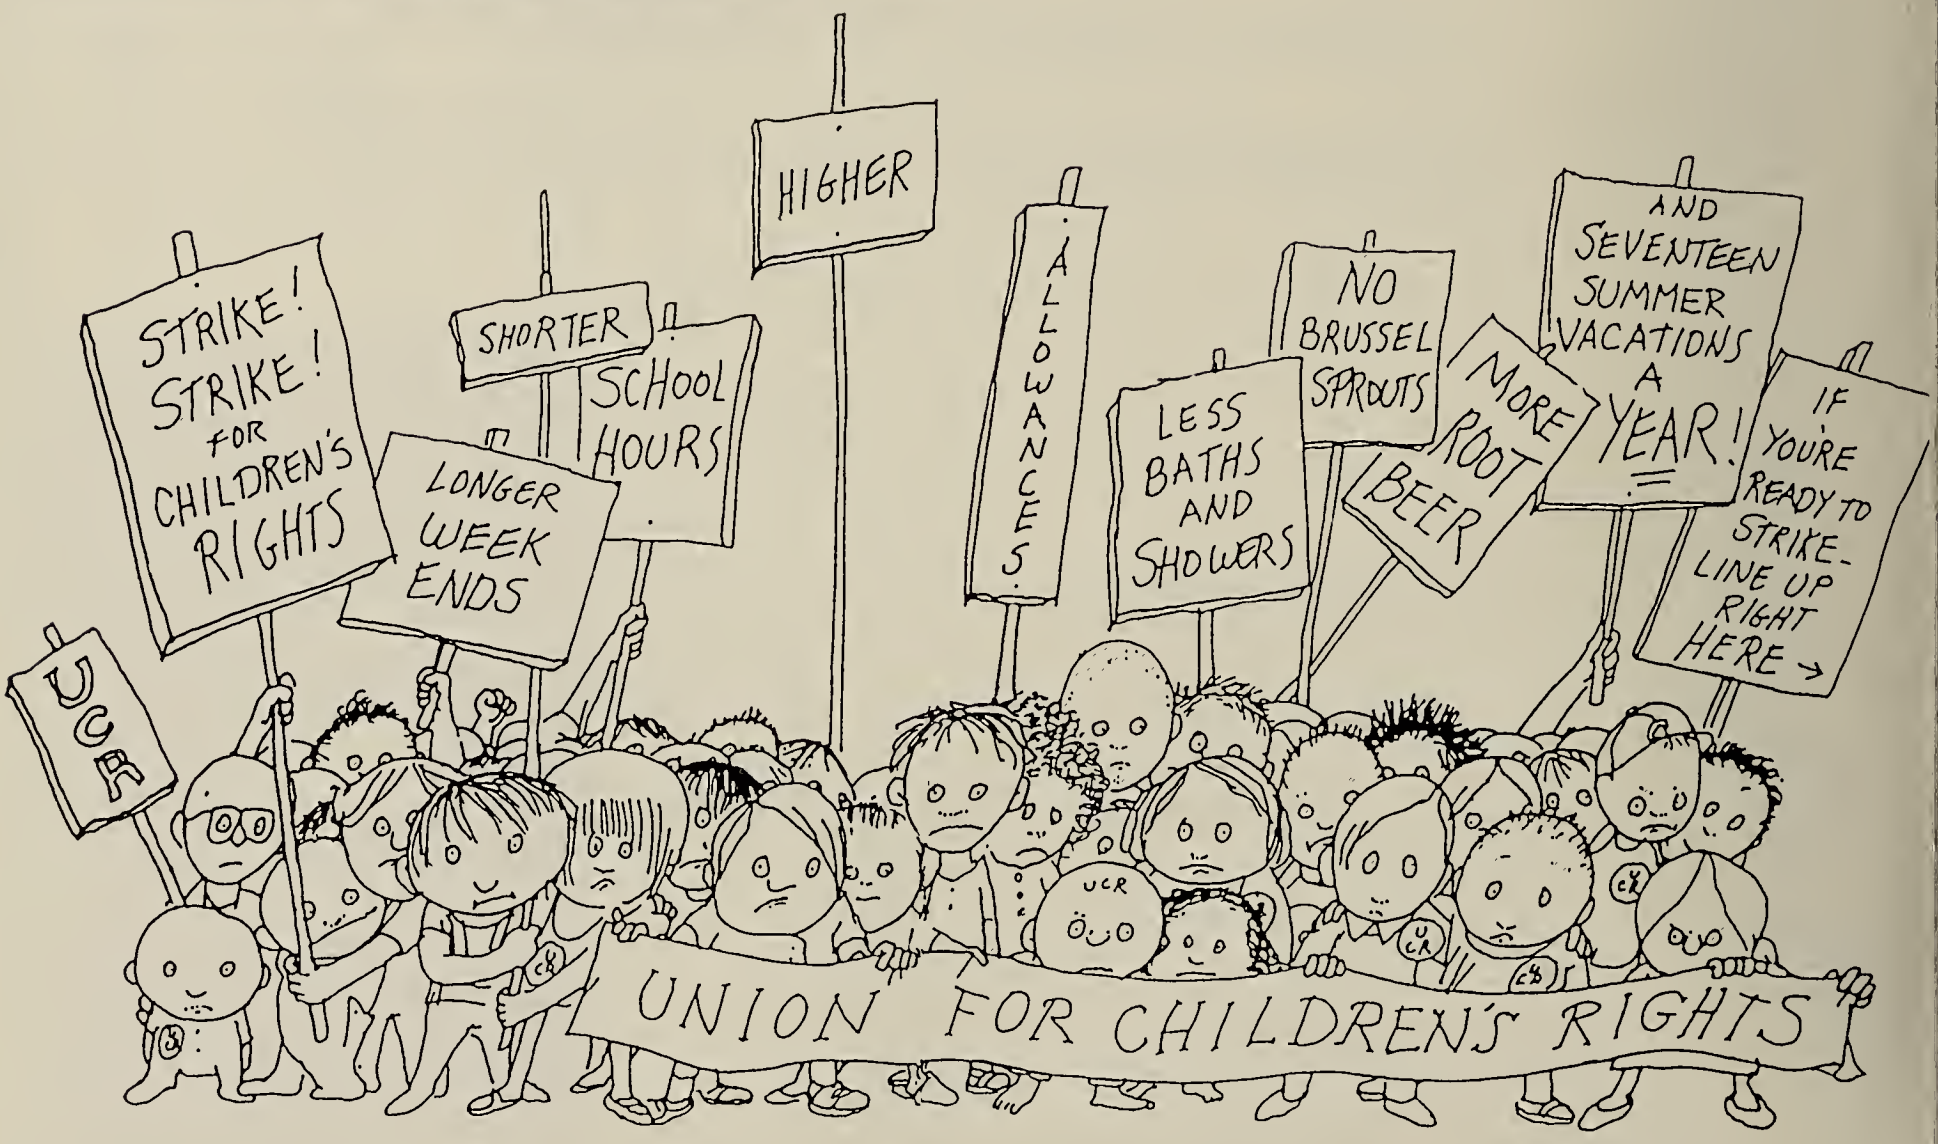
DEDICATION

We, the Yearbook Staff would like to dedicate this book to Mrs. Helen Cooper. ''Coop,'' as she is affectionately known, has been there when we needed a helping hand, advice or just someone to talk to. She is not only our teacher and advisor, but also a good friend. We have learned so much from her . . . not only about yearbook, but also, about life. We would have been lost without her.

Thanks for all you've done, love always, Kim, Laura and all the 1991 Yearbook Staff.



Editor's Note

1st row Debbie F, Yean Y, Michelle D, Heidi C, Front Row Kim H, Jen S, Jace P, Amy D, Laura S.

No one could really know how difficult it is for one page in this book to be done, except for someone on the staff. Only a selected few could know how to turn a blank piece of paper into a finished page. It starts with a "layout" and then "copy," "captions," and "art."

We would like to thank all the dedicated few who helped with all the long nights and last minute deadlines. Also we would like to thank everyone who stayed until the end and did not quit halfway thru and helped to complete all pages that were supposed to be done by others, but abandoned.

A special thanks to Tara Hall for her dedication and coming every Monday night; Michelle D. for always coming through (barely); Amy D. for dedication on her section; Jen for being clueless; Debbie for trying so hard; Jean for being the first done; Jace and Michelle Z for their ability to draw and Heidi for always being on time.

Above all we would like to thank Coop for all the pizza, candy, cookies, soda and especially for her little notes; Marie for all the long nights; Arnie Lohman for all the help and fun times; Joe Geoffroy for all the pictures and Jacqui Bazin in Winston-Salem, North Carolina for going to all the trouble that she didn't have to. And to everyone else not mentioned, you have not gone unnoticed. Thanks again.

Sincerely,

Laura Siekman

MESSAGE FROM GRAPHIC ARTS CLASS TO FELLOW MEMBERS OF THE CLASS OF '91

Like the sampling of humanity that we are, each member of the class of 1991 is a unique personality... each different, each created for a singular purpose. Hardworking, outgoing and striving to lead happy, healthy lives, we have created for ourselves a community of friendship during our four years at King Philip Regional High School.

As a class,we have been remarkable for successful responses to challenges. May we always recognize challenges as golden opportunities as our lives unfold.

What we, members of the class of 1991, should most be proud of, however, is our compassion.

Let us ever be sensitive to our friends, to all people, to the earth itself, fellow classmates. May the world forever say we are beautiful people.

Graphic Arts Class of 1991

We would like to thank the following companies for their time, effort, and support: Superior Printing Ink Co. Inc., Lindenmeyr Munroe Paper Co., CAT Publication Inc., Zimmer Dean Forest Graphic Arts Supplies, Pioneer-Roberts Paper Co., Jay Printing & Lithographing Co. Inc., TBJ Graphic Arts Supply Inc., Milford Daily News, Jostens School Products Group,and Louise Lind Free- Lance Writer.

THIS PAGE WAS PRINTED BY THE STUDENTS OF KING PHILIP REGIONAL HIGH SCHOOL GRAPHIC ARTS.

King Philip, victim of the English colonists' lust for land, was once sachem of the Wampanoag Indians and chief of all the lesser sachems from Cape Cod to Narragansett Bay. May the name of our school remind us always to treat men and women with justice and respect so there will be no such tragic figures in the future.
